

EXCELLENCE & HIGH EXPECTATIONS

BCSC prepares expert learners through an equitable system of high-quality curriculum, resources, and educators.

Providing equitable and high quality curriculum and resources to BCSC teachers and students is at the heart of the mission for the BCSC Elementary Curriculum team. Our curriculum and intervention programming is carefully crafted to focus on guiding students in Prek-6th grade toward gaining confidence and agility in learning content standards. We develop the foundational skills for critical thinking and listening, problem solving, comprehension, and creative expression.
