

BCSC C4 TRANSPORTATION HUB SITES

BCSC will provide school bus transportation to the following neighborhood sites to provide a means for students in C4 programming to attend in-person classes. The column on the left is the time the bus arrives at the site, the column on the right is the time it will arrive back for drop off. Shuttles are provided between the high schools throughout the day. Students can ride a mid-day bus to or from school, so there is no need to stay all day. Times listed are approximate.
