Students in **Steven Guthrie's** Automotive classes prepared a car to celebrate Homecoming week this week at CNHS. The student body was invited to take a swing at the car as they prepare to smash their competition at tonight's football game. The Automotive students helped make the event safe for their peers by removing the glass, lights, and anything else that could cause harm.

After a week of in-class training on sobriety assessment, Criminal Justice instructors **Mike Ward** and **Chanel Thompson** took their first and second year students outside to experience a simulation of impaired driving. At far right, instructor Mike Ward assists CSA senior **Jared Marquez** while he attempts to drive a golf cart through a marked course wearing fatal vision impairment goggles. Near right, Hauser junior **Sam Miller** wears fatal vision impairment goggles and walks through a mock course while attempting to avoid obstacles.

CNHS Junior **Anushka Nair** submitted the winning design for the 2020 Mill Race Marathon poster. Anushka received a \$500 scholarship for her design. Due to COVID-19, the race will be held virtually this year; however, details for purchasing Anushka's poster can be found by visiting millracemarathon.com. Anushka has taken Design Fundamentals as well as Graphic Design and Layout through C⁴. Anushka credits her design capabilities to her experience in Mr. Metz's classes. She said, "Several of the concepts we've learned in that class, such as design layouts/colors, heavily influenced the outcome of my Mill Race Marathon application!"
