@ConnectionsC4

Today marks the official retirement of three amazing C⁴ instructors. Between these teachers there are 120 years of hands-on teaching experience and countless lives inspired to follow their dreams and make a difference in this unpredictable world! We wish **Karen Nading, Garry Taylor, and Jenny Wallace** much joy and rest as they begin the next chapter in their life story.

Karen Nading has spent the last 45 years sharing her passion for Family and Consumer Science with students. Pictured at left, Karen works with a student to make noodles early in her teaching career. Karen has countless memorable moments, but her greatest joy was that of being the advisor of the state FCCLA president and vice president. Karen loved seeing students make connections and enjoyed the front row seat she had to witness her students shine as future leaders. Karen is looking forward to spending time with her 91 year old mother and she also wants to take time to enjoy the view. Many of her years of teaching were spent in a classroom without a window!

Garry Taylor spent all 42 of his years in education at Columbus East High School. Garry's favorite memory is placing 3rd place at the State Plymouth Troubleshooting contest and participating in the Super Mileage Contest in the '80s. His advice to his colleagues: "Hang in there – the kids need you!"

Jenny Wallace has 33 years of teaching experience under her belt, with 26 of those years at BCSC. Jenny expressed the gratification she had watching her students in their early childhood education preschool placements. She stated, "I realize how far-reaching their impact will be when I know they are capable of providing good learning and care for young children. Her advice to other teachers is: "Know your students – don't be afraid to be human with them."
